

ENABLING THE FUTURE OF SMART WINDOWS

○ NOW YOU SEE IN

NOW YOU DON'T ⓘ

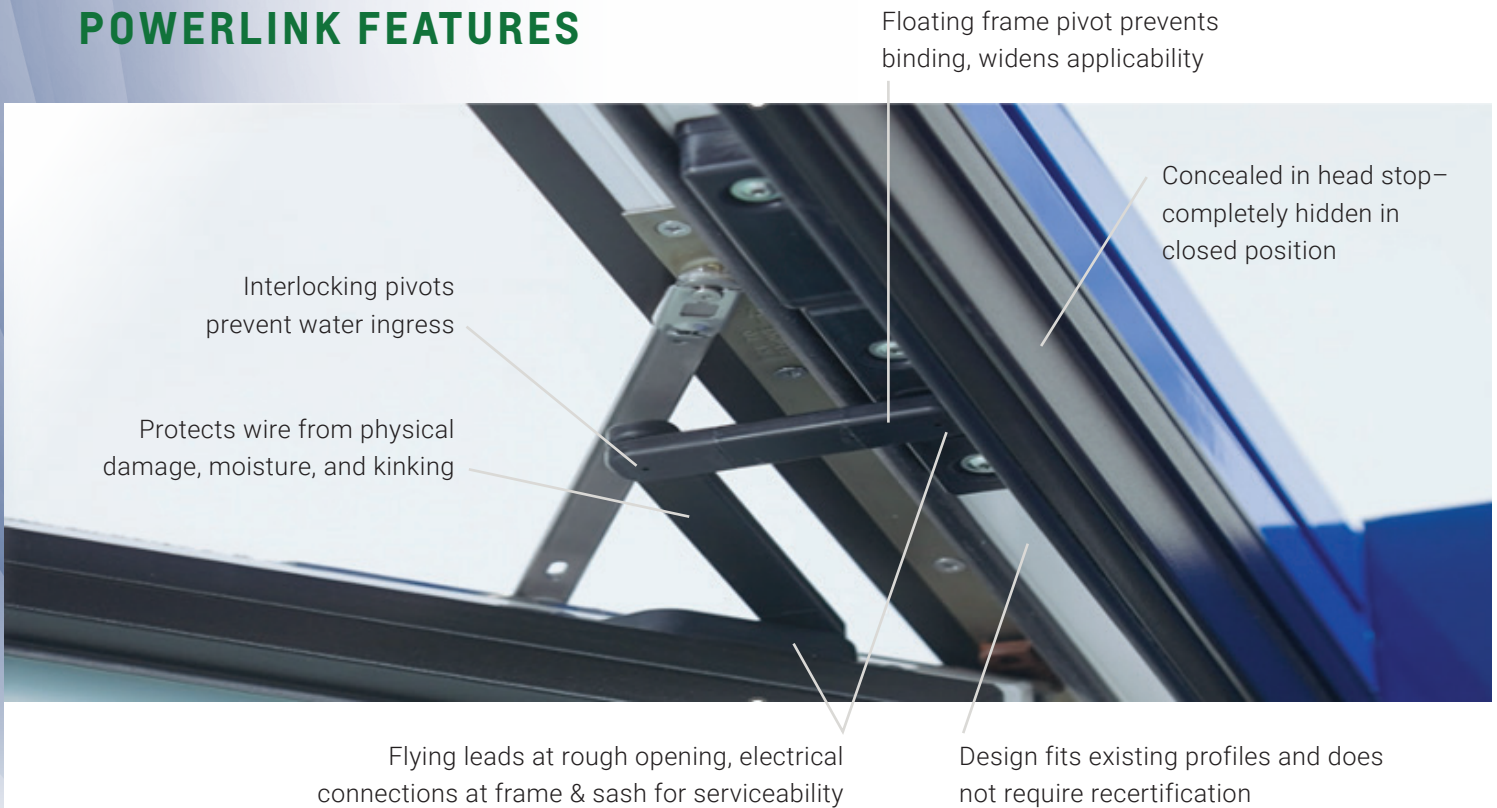

PowerLink is a concealed, hinged conduit that delivers uninterrupted power to operable window sashes, enabling hardwired smart technology in operating windows. No longer limited to fixed designs, architects and homeowners can now integrate features like switchable privacy glass—without sacrificing aesthetics or functionality.

EXPANDING THE USE OF SMART HOME TECHNOLOGIES

- Switchable privacy glass
- Electrochromic tinting
- Solar energy harvesting
- Motorized blinds
