LOCKS

Low Profile Sash Lock

With a clean low-profile design, these locks withstand 250 lbs. of forced entry per lock. Low profile sash locks offer .625" pull-in and tandem locking for taller window lock applications.

Product Highlights

- Lock Design: single, multi-point (short)
- 250 lb load rating per lock point (dependent on keeper used)
- Window sash locks provide .625" (15.8 mm) of pull-in created by a revolving cam locking mechanism.
- High-pressure die-cast zinc case and handle. Painted steel back plate. Steel keeper and steel locking cam
- Tie bar application is optional
