GEMINI 2 POINT KEEPERS

2496-00

AmesburyTruth realizes that no two door systems are exactly alike; therefore, we have designed multiple keeper options to accommodate your application. This 2-point keeper (3/4” tall) is compatible with AmesburyTruth Gemini II mortise locks. It ensures your door latches securely at two engagement points, providing enhanced protection against forced entry.

product highlights

- Supports two locking points for greater security.
- ¾ of an inch tall. Choose the best keeper height for lock engagement in your application.
- Made from heavy-duty steel to withstand daily use and harsh weather conditions.
- Slotted mounting locations allow for keeper vertical position to be easily adjusted for best lock operation
