## GEMINI 2 POINT KEEPERS

### 2778-84

No two door systems are exactly alike; therefore, we have designed multiple keeper options to accommodate multiple applications. This 2-point keeper (1" tall) functions perfectly with our Gemini II mortise locks. The 2778-84 keeper ensures your door latches securely at two engagement points, providing enhanced protection against forced entry.

#### product highlights

- Enhanced security with dual locking points provides stronger protection against forced entry, offering peace of mind for your home or property.
- 1 inch tall. Choose the best keeper height for lock engagement in your application.
- Heavy-duty construction built from rugged stainless steel to ensure lasting strength in daily use.
- Slotted mounting locations allow for keeper vertical position to be easily adjusted for best lock operation
