Sidelite Sentry Lock

The Sentry is a multi-point locking hardware for operable sidelites. A market driven solution for operable sidelites - the perfect complement to the Sentry multi-point hinged door system. operable sidelite hardware combines a convenient center latch with an ergonomic easy to operate handle. Operating the handle down by 90 degrees retracts all lock points while providing an easy to grip handle for opening and closing the panel. The Sentry Sidelite system is flexible, reliable and very intuitive.

product highlights

- Customizable into 3-point tongue or hook versions which can also accommodate different door sizes
- Hardware combines a convenient center latch with an ergonomic easy to operate handle
- Operating the handle down by 90 degrees retracts all lock points while providing an easy to grip handle for opening and closing
- Positive detent prevents handle sag over time, while corrosion resistant 300 series SST faceplate ensures the good looks and performance for years to come
- A visually intuitive indicator of the locked or unlocked status of the sidelite panel
- Center latch can be reversed with hardware already installed in the door
