## HINGES

### Casement 4 Bar

Our expertly crafted 4 bar hinges have a variety of sizes and options to choose from - with or without stops to varying degrees of opening and a wide range of lengths and thicknesses are also available.

#### product highlights

- Designed for casement windows
- Standard duty recommended for a maximum vent weight of 82 lbs. heavy duty: 158 lbs.
- 4 bar hinges are certified to AAMA 904.1
- 4 bar hinges are adaptable to both casement and projected window applications
- Non-handed and made of durable stainless steel
- 222/333 Series Hinges can produce a 90 degree window opening allowing an average-sized person to escape in the event of an emergency
- 4 bar egress hinges allow outside vents to be washed from the inside
- 4 bar hinges have been designed to be used primarily on vents with a lip on the outside edge
- By design, our 4 bar hinges are engineered to project the vent out as it pivots to avoid interference between a lipped vent and frame
