

Integrated Lock and Tilt Latch DualTech Top Mount

Locks

The DualTech top mount Lock is an ITSL designed to be fully installed in seconds with an innovative quick connection system between the lock and tilt latch. The lock has a traditional appearance and the patented design adapts to a wide range of profiles and extrusion tolerances. A left hand and right-hand tilt latch and lock are offered in three different lengths and are easily installed a fixed distance from the edge of the sash based on the width of your window.

PRODUCT HIGHLIGHTS

- Recommended for: composite, vinyl, and wood
- Concealed latches achieve smooth, uninterrupted check rail sight lines
- Available in several plug-n-play marked based visuals in both stand-alone sash lock and DualTech configurations
- Universal symbols allow for intuitive operation of the lock and tilt latch by simply using the lock lever
- Positive detent in both the lock and unlock positions provide a secure feel
- Simple and fast one-step route for both latch and lock
- DualTech latches use Flex-Fit technology to minimize SKUs – only 3 links for all window sizes
- Short supply chain for reduced lead times and lower inventory levels
- All zinc die-cast sash lock construction for maximum strength
- Sash weld is not compromised, helping maintain corner strength for air, water and structural testing
- Intuitive functionality allows latch to operate with a swing of the lock lever
- Helps your window system meet the highest industry standards
 - ASTM F588 (Grade 10) forced entry resistance test
 - California CAWM 301 forced entry resistance test
 - Tested to DP-50 performance levels
