

Engineered Solutions. Trusted Results.

DIAMETER: 0.160"

24089

Seamless compression Backer Rods are nearly 100% closed cell to prevent water from penetrating foam cell structure. Recommended uses include gap filling, expansion joints, and caulking backer. All of Foam-Tite®'s products are CFC and Phthalate free.

product highlights

- Bulb Diameter: .160" (4.06mm)
- Soft compression for ease of installation
- Flexible enough to fold to double up for larger gaps
- Recommended uses include mullion filler, caulking backer, and carpentry gaps
